XEROX REPOSSESSED THE [redacted] MACHINE ON APRIL THIRTY NINETEEN SEVENTY, AT WHICH TIME AN ACTUAL METER READING WAS OBTAINED BY XEROX REPRESENTATIVES. THIS READING REFLECTS A DEFFERENCE OF SEVEN THOUSAND THREE HUNDRED SIXTY NINE COPIES OVER THE LAST FIGURE REPORTED BY SINAY ON FEBRUARY TWENTY SEVEN NINETEEN SEVENTY. [redacted] ADVISED BASED ON HIS EXPERIENCE, SINAY REPORTED ACTUAL METER READINGS UP TO OCTOBER ONE NINETEEN SIXTY NINE. SHE PROBABLY DID NOT UNDERSTAND THE MINIMUM CHARGE REQUIREMENT AS HAD SHE CLAIMED ONE THOUSAND TWO HUNDRED COPIES USED EACH MONTH BETWEEN THE PERIOD JUNE TWENTY SIX AND AUGUST TWENTY NINE NINETEEN SIXTY NINE, SHE WOULD HAVE ACQUIRED A RESERVE OF UNUSED METER COUNTS. HE STATES SHE MAY HAVE BEGUN SUBMITTING AN EVEN USAGE OF TWELVE HUNDRED COPIES PER MONTH COMMENCING OCTOBER ONE NINETEEN SIXTY NINE FOR ONE OF THREE REASONS. ONE, TO TAKE ADVANTAGE OF UNUSED COPIES. TWO, TO EVEN OUT MONTHLY CASH PAYMENTS. THREE, THERE COULD HAVE BEEN UNUSUALLY HIGH VOLUME IN ONE OR TWO MONTHS WHICH THEY ATTEMPTED TO EVEN OUT BY CLAIMING AN EVEN TWELVE HUNDRED COPIES PER MONTH. HE STATES THE FACT SEVEN THOUSAND THREE HUNDRED SIXTY NINE COPIES WERE REPORTED USED BETWEEN THE PERIOD FEBRUARY TWENTY

END PAGE TWO

SEVEN NINETEEN SEVENTY AND APRIL THIRTY NINETEEN SEVENTY DOES NOT NECESSARILY MEAN THESE COPIES WERE ACTUALLY USED DURING THIS PERIOD BUT MAY HAVE BEEN ACCUMULATED FROM PREVIOUS MONTHS WHEREIN SINAY WAS REPORTING THE MINIMUM USUAGE.

XEROX RECORDS FURTHER REFLECT BETWEEN THE PERIOD OCTOBER THIRTY ONE NINETEEN SIXTY NINE AND NOVEMBER THIRTY NINETEEN SIXTY NINE THE MACHINE IN QUESTION WAS SERVICED AT SINAY'S OFFICE. Investigation at the Hotel Sonesta, Logan Airport, East Boston, Massachusetts, disclosed that [redacted] was a guest of the hotel on July 22, 1971.

On October 29, 1971, an affidavit by [redacted] was presented to Federal Judge W. Arthur Garrity, Boston, Massachusetts. The affidavit alleged that an illegal electronic surveillance was discovered by [redacted] The affidavit included a statement by a [redacted] to the effect that he believed a new type of electronic detection equipment was being used on the [redacted], Washington, D. [redacted] advised on November 2, 1971, [redacted] of Senator Mike Gravel of Alaska on the evening of November 1, 1971, for "bugs." According to [redacted], he was unable to determine whether or not the telephone lines of Senator Gravel were "bugged" and recommended to the Senator's office that they request a check of the telephone lines by telephone company experts. Wallace stated that among the people present for this survey were Senator Gravel and [redacted]

The FBI has never maintained electronic surveillance coverage of the [redacted] or the office of Senator Gravel.

Investigation at Cambridge, Massachusetts, has disclosed that during the period June 12, 1971, to June 15, 1971, [redacted] was registered at the Treadway Motor House in Cambridge. Records of the Treadway Motor House show that during this period telephone calls were placed from [redacted] room to telephones subscribed to by [redacted]

[redacted] at Princeton University who allegedly has knowledge that the IPS was in possession of a copy of the "Pentagon papers." Falk recently refused to appear before a Federal Grand Jury in Boston, Massachusetts, hearing witnesses in this case.

[redacted], who resides in New York City, was interviewed on September 1, 1971, at which time he advised that during recent months he had assisted Ellsberg in handling numerous telephone calls and correspondence and had also arranged press interviews and speaking engagements for Ellsberg. In addition to being a [redacted] in Washington, D. C., during 1969, it is noted that [redacted] was indicted on February 11, 1969, for refusing induction into the United States Armed Forces. This indictment was dismissed on April 28, 1970.

[redacted] appeared on October 13, 1971, before a Federal Grand Jury in Boston, Massachusetts, having been granted immunity. After answering general preliminary inquiries, she declined to further testify citing several reasons for her refusal. After a hearing before Federal Judge W. Arthur Garrity, [redacted] was held in contempt of

court and remanded to the custody of the Attorney General. Upon appeal, her commitment was stayed and she was released on a $10,000 surety bond.

and [redacted] of Daniel Ellsberg, [redacted]

It is not known whether the above-mentioned telephone calls were made by [redacted]. The possibility exists that these calls were placed by Daniel Ellsberg since hotel records show the billings for the hotel room and the telephone calls were paid for by check by "Ellsberg," not further identified. It will be noted that these telephone calls were placed during the period June 13, 1971, through June 15, 1971, which period coincides with the dates of publication of the "Pentagon papers" in "The New York Times."

In addition to the above-mentioned telephone calls, records of the Treadway Motor House show a telephone call was made on June 13, 1971, to the [redacted] New York City. by "The New York Times."

A telephone call was also made on June 13, 1971, to the residence of Congressman Paul N. McCloskey, Jr., McLean, Virginia. It will be recalled that McCloskey has admitted receiving material from Ellsberg, which material reportedly came from the "McNamara Study."

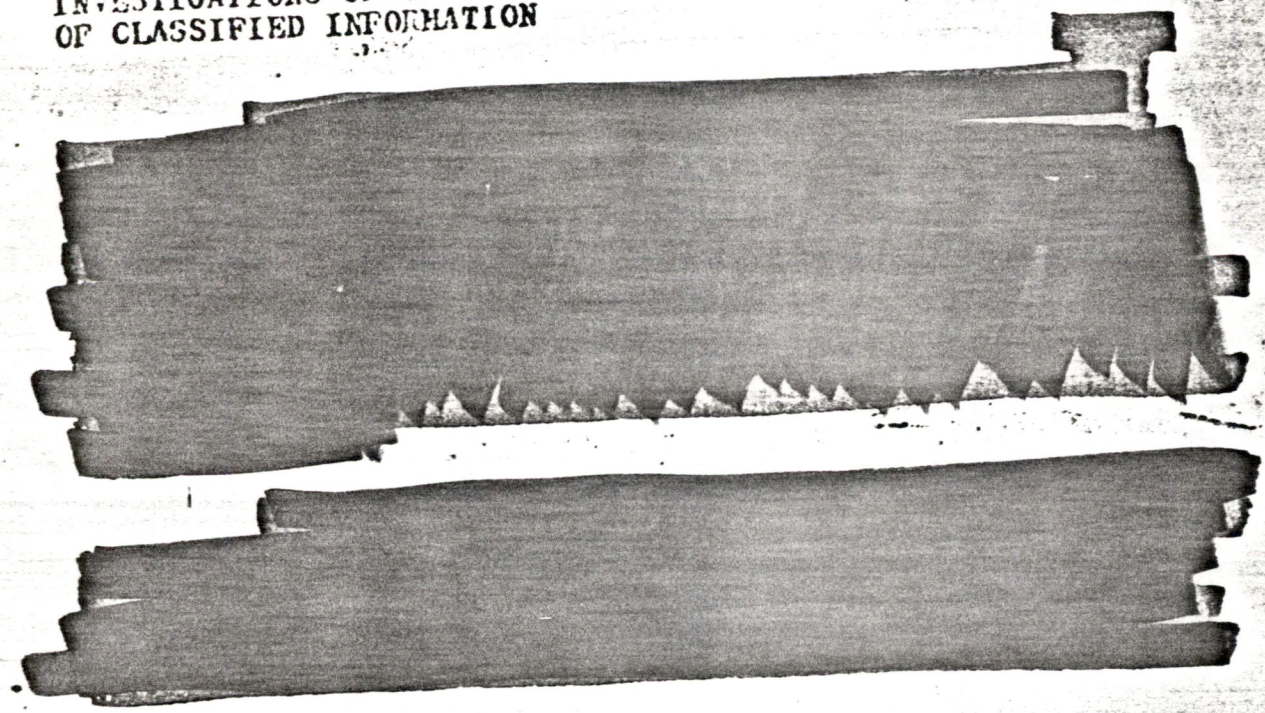

It will be recalled that Daniel Ellsberg was alleged to have reproduced documents in his possession while employed at the Rand Corporation in Santa Monica, California. This reproduction allegedly took place during October, 1969, at the business office of Lynda Sinay, utilizing a Xerox machine rented by her. Records of the Xerox Corporation at Santa Ana, California, reveal that the machine rented by Sinay was obtained by her under an agreement calling for minimum usage of 1,200 copies per month. Meter reading cards were normally submitted by Sinay's firm on the last day of each month. During the months immediately preceding October, 1969, the cards show that 778 to 959 copies of material were prepared monthly. Copies in October, 1969, increased to an excess of 2,600 copies and, thereafter, the monthly copies averaged 1,200 copies each

month. When the Xerox machine was repossessed by the Xerox Corporation on April 30, 1970, an actual meter reading disclosed that 7,369 copies had been made on the machine over and above the number of copies reported by Sinay s firm. Attempts are being made to locate maintenance records for this Xerox machine which would more accurately disclose the actual usage of the machine during the month of October, 1969.

On October 29, 1971, [redacted] at about 4:30 p.m. on June 23 or June 24, 1971. According to [redacted], offered him 1,000 fresh pages of the "Pentagon papers." In return, [redacted] asked for a guarantee that once ABC reviewed the papers their content would be released to the public. On a later contact [redacted] advised [redacted] that the ABC attorneys had advised [redacted] not to accept the offer since ABC could be held in contempt of court. [redacted] added that during the calls he had a feeling that he was speaking to Daniel Ellsberg but he was unable to substantiate that belief. It is not known whether the [redacted] mentioned above is identical with [redacted], who coordinated some of the work on the "Pentagon papers" for that newspaper.

LEAKS OF CLASSIFIED INFORMATION
TO THE PRESS

To summarize, for information, recent developments in our continuing investigations of alleged leaks of classified data to the press.

MC LEK (Daniel Ellsberg): On 11/3/71 a WFO source furnished a schedule of Campus Strike Action Rallies scheduled for that day to endorse strike action called by the Student Mobilization Committee. This information indicated that Washington area colleges would stage on campus rallies early in the day with speakers endorsing the strike action. Among the scheduled activities at American University was an 8 p.m. showing of "The Sale of the Pentagon Papers" which was to be followed by a panel discussion on the "Pentagon papers."

On 11/2/71 a symposium on the "Pentagon papers" sponsored by the graduate students of the Political Science Department, University of California at Riverside, California, was conducted between 12:30 p.m. and 5 p.m. The speakers were Thomas E. Hayden, member of the Chicago Seven conspiracy trial; George Brown, former congressman who spoke on "The Papers and the Roll of Congress In Policy Decisions;" Dr. Melvin Gurtov, formerly at Rand Corporation and an associate of Ellsberg who is now acting associate professor of political science at the above university who spoke on "The Papers and the Vietnam War;" Albert R. Appleby, former chairman of the Business Executives Movement For Vietnam Peace and an associate of Ellsberg who spoke on "The Papers and the Democratic Process;" and Francis Carney, professor of Political Science Department, University of California at Riverside, California, who spoke on "The Papers and the Roll of the Intellectual In Policy Making."

During the talk Hayden stressed the fact it was necessary for the people of the United States to continue to be informed in matters similar to the "Pentagon papers." He stated that people in a position to obtain information similar to the

ReLAreq 11/1/71.

Previous investigation in this matter concerning a letter of agreement between Morton Halperin, Dr. Leslie Gelb, Paul Warnke and Henry S. Rowen, president of Rand Corporation, Santa Monica, California, relative to storage of documents pertaining to the "McNamara Study," revealed that the letter was intended to be dated 12/18/68. Recent information developed by Los Angeles, as set forth in referenced report, page 19 and 20, disclosed that the original of the letter was undated and copies of the letter were either dated 12/30/68 or 12/18/68.

[redacted] California, has advised that [redacted] had advised him that the date of transmittal of the letter should be 12/30/68 and accordingly, [redacted] penned that date onto the Rand copy. Subsequently, in June of 1971, [redacted] stated that the 12/30/68 date appeared to be a date of receipt of a particular copy of the agreement and that an original DOD date stamp of 12/18/68 appeared on a signed copy. [redacted] presumed, therefore, that the letter date was the correct date for the letter of agreement. [redacted] further advised that Rand Corporation had recently received a copy of the letter in question, with a stamped date of 12/18/68, from Rand, Washington, D.C., but he could not explain why it had been sent there. [redacted] suggested that [redacted] Washington, D.C., might be better able to explain why that copy had been sent Rand, Santa Monica.

WFO should interview [redacted] and [redacted] in this matter to determine their views as to the dating of the letter of agreement previously referred to. In the event that matter remains unresolved after these interviews, WFO should make appropriate inquiries at DOD to determine any additional details to resolve the question of the dating of the letter of agreement.

NOTE:

The above referred to letter of agreement was the means by which copies of the "McNamara Study," both draft and final versions and related documents, were stored at Rand, Santa Monica, and Rand, Washington, D.C., by Gelb, Warnke and Halperin. Because of the confusion in the dating of the document, it is not clear whether the latter was actually dated in December or was backdated sometime after in order that the individuals above could "legitimize" a previous questionable dissemination of the "McNamara Study." Interviews by Los Angeles did not resolve the matter and lead being set forth for WFO to attempt to gain an insight in this matter.

Interview of [redacted] to determine nature of contact by telephone from someone at the residence of Daniel Ellsberg on 6/30/71 is authorized. During the interview, if necessary, it may be mentioned to [redacted] that information concerning the telephone call in question was received from a Departmental Attorney. The interview should be conducted by experienced personnel away from [redacted] office. [redacted] should be advised that the FBI is conducting this investigation at the specific request of the Assistant Attorney General - Internal Security Division. Results should be submitted by summary teletype, followed by inclusion of appropriate FD-302 in a report.

Interview with [redacted] not being approved in view of the fact that Bureau files disclose that he may not be discreet, and that in 1965 he published an article containing highly classified information of the United States Government.

To comment on press items this date growing out of service of subpoenas issued by Federal Grand Jury at Boston. For information.

The "Washington Post" today carried a news article (copy attached) incorporating criticism of Bureau for service of a subpoena to obtain bank records of the Beacon Press and the Unitarian-Universalist Association in Boston. It will be recalled this subpoena is designed to uncover possible payments by Beacon Press to Senator Mike Gravel or agents for Gravel in the latter's book on the "Pentagon papers."

SAC, Boston, telephonically advised of the following facts in this matter to date: The subpoena for the bank records involved was issued by the Federal Grand Jury at Boston 10/28/71 and was served by Bureau Agents on the New England Merchants National Bank at 10:30 a.m., 10/29/71. The Federal District Appellate Court ruling stopping the Grand Jury from further investigation was received by Departmental attorneys at Boston in the late afternoon of the same date. Special Agents at Boston immediately inquired of Departmental attorneys if the court ruling would have any effect on the subpoena and were told that it would not. On Tuesday, 11/2/71, Departmental attorneys at Boston advised Boston Office the bank had contacted the attorneys stating that compliance with the subpoena presented a monumental task of review of approximately 5,000 items and asked if the Departmental attorneys could supply someone to assist in this review. The Departmental attorneys requested the Boston Office to provide this assistance in the form of competent Special Agent personnel. A Special Agent knowledgeable in this matter and a qualified Special Agent (accountant) reported to the bank in question on 11/3/71 and were successful in assisting bank personnel in narrowing down the sizeable project of review from ten accounts to the two accounts of interest to the Departmental attorneys, data from

which would be responsive to the subpoena. No other inspection or study of bank records has been made by Bureau Agents in this instance.

The newspaper article in question also notes angry reaction by the members of the Council on Foreign Relations to the organization's decision to make available to the FBI a "Confidential" seminar paper delivered by Ellsberg before a meeting of that organization.

Earlier investigation had revealed Ellsberg had delivered a paper before the group mentioned which had been classified by Ellsberg as "Confidential." Appropriate subpoena was obtained from the Federal Grand Jury at Boston for production of this paper to establish if, in fact, it did contain information the unauthorized disclosure of which would be an additional substantive violation of espionage statutes on the part of Ellsberg. Examination of the paper by Department of Defense has subsequently revealed that the "Confidential" classification assigned to the paper by Ellsberg was probably made by him to provide a cover for a number of generalizations he had drawn from intelligence agency documents and material from the Joint Chiefs of Staff, generalizations he did not want to be circulated by attendees at the Council meeting. Department of Defense concluded that Ellsberg avoided quoting from these sources and that it would be impossible to link the information and/or generalizations given to any specific Department of Defense or intelligence agency documents.

Departmental attorneys in charge of the investigation at Boston are fully aware of the details of Bureau's actions in these separate matters as noted above and Assistant Attorney General - Internal Security Division has been kept aware of our actions in this matter on a continuing basis through daily dissemination of information from Boston Office.

U.S. Subpoenas Unitarian Fund Records

By Sanford J. Ungar
Washington Post Staff Writer

The FBI, armed with a grand jury subpoena, is inspecting the bank records of the Unitarian-Universalist Association in Boston.

The FBI inspection, covering eight separate bank accounts of the religious association and its non-profit publishing arm, Beacon Press, is part of the Justice Department's investigation into disclosure of the Pentagon papers.

Sen. Mike Gravel (D-Alaska), who learned of the bank inspection last night, said he will fly to Boston this morning to ask the First U.S. Circuit Court of Appeals to hold the Justice Department in contempt of court.

Gravel contends that the FBI action violates the appellate court's order suspending the grand jury investigation, pending the outcome of the senator's legal effort to place permanent restrictions on the probe of the Pentagon papers.

Beacon Press last month published an edition of the secret Pentagon study on the Vietnam war from material made public by Gravel during a midnight Senate subcommittee session June 29.

As Gravel planned his new court action for today, the religious organization announced in Boston that it would send representatives to New England Merchants National Bank —where the records inspection has been taking place—"to register our strenuous objections."

Attorneys for the Unitarian-Universalist Association and Beacon Press were also reportedly considering their own moves in federal court in Boston.

Statements from both the association and Gravel last night indicated that the new issue had been injected into the continuing furor over the Pentagon papers investigation —the constitutional separation of church and state.

Robert West, president of the religious organization, which represents some 200,000 Unitarian-Universalists across the country, said, "We perceive grave danger in the subpoenaing by the government of the checks of a religious denomination, particularly as it relates to the publication of a controversial book."

He charged that "serious questions of church-state separation and freedom of the press are raised, in addition to the general issues of government intimidation and repression of dissent."

Gravel, for his part, said, "I think it's wrong. I will use everything in my power to stop them from what they are doing."

The senator has already contended in federal court that the government investigation threatens his own congressional immunity as well as the constitutional separation of powers among the three branches of government.

Sources said the bank records under examination by the FBI cover the period between June 1 and Oct. 1 of this year, during which arrangements were made for Beacon's republication of the Pentagon papers.

The grand jury subpoena was originally issued on Oct. 28 and covers all checks deposited into and issued from the eight bank accounts in excess of $5,000.

According to the subpoena, those checks are to be presented before the grand jury next Wednesday, the same day as the scheduled argument on Gravel's appeal before the circuit court in Boston.

The subpoena came to light only yesterday, when bank officials informed the association and Beacon that FBI agents had already begun inspecting the records.

Attorney David R. Nissen of Los Angeles, who is supervising the government's investigation of the Pentagon papers, reached in Boston last night, said he had no information about the FBI's activities at the bank.

But Nissen said that as long as grand jury proceedings are not resumed, "the FBI is perfectly free to interview anyone" without violating the outstanding appellate court order.

Bank officials could not be reached last night for comment.

Meanwhile, members of the Council on Foreign Relations have reacted angrily to the organization's decision to make available to the FBI a confidental seminar paper by Daniel Ellsberg.

James C. Thomson, a professor of history at Harvard University, yesterday labeled the council's action "outrageous."

"It is counter to normal ethics and to the printed by-laws of the organization," Thomson said after learning that the document had been turned over to FBI agents in response to a subpoena from a grand jury in Boston investigating disclosure of the Pentagon papers.

ESPIONAGE - X

The Boston Office of this Bureau has furnished information regarding a stipulation filed in the United States Court of Appeals for the First Circuit on November 5, 1971, at Boston, Massachusetts, and approved by Chief Judge Bailey Aldrich of that Court on the same date. This stipulation provides that no representatives of the United States shall seek to obtain documents relating to the so-called "Pentagon papers" within the District of Massachusetts for their own examination or for the use of a Grand Jury by the force or use of a subpoena.

Departmental Attorney David R. Nissen of your Division was consulted by the Boston Office of this Bureau on November 10, 1971, regarding the stipulation mentioned above with the request that he furnish an interpretation of the application of the stipulation to current investigative activity by the FBI. Mr. Nissen stated at that time that according to his interpretation of the stipulation, FBI Agents could currently conduct investigation previously undertaken in this matter, except for those instances of investigative effort which called for documents or individuals to be subpoenaed before the Federal Grand Jury at Boston. He added that, should any material be made available by any subpoenaed individuals such as a record which was previously called for under a subpoena duces tecum but which was not available until this time, receipt of such material should be declined until the Federal Grand Jury is again able to meet. Otherwise, he could see no restriction on Bureau investigation in this case.

Based on the interpretation of the stipulation by Mr. Nissen as noted above, the Boston Office of this Bureau will resume intensive and aggressive investigation there of all facets of this matter which do not involve the use of a subpoena from the Federal Grand Jury at Boston. This

In the event your interpretation of the mentioned stipulation differs from that of Mr. Nissen, you are requested to advise this Bureau immediately and to furnish details of any limitations you feel are imposed by the stipulation on investigations being conducted in this matter by the FBI.

NOTE:
